Multi-Surface Biocidal Cleaner

**A highly effective triple action biocidal cleaner.
It emulsifies, sterilises and cleans in one operation.**

BENEFITS

- Water soluble concentrate.
- Acid and caustic free.
- Contains no harmful bleach.
- Odourless.
- Food safe.
- Powerful biocidal action.
- PH of 7 to 7.5 at working solution – virtually neutral.

PRODUCT SIZES

- 750 ml ready to use
- 3.25 litre concentrate
- 20 litre concentrate

DESCRIPTION

Multi-Surface Biocidal Cleaner is a highly effective cleaner with a triple action formulation.

It emulsifies, sterilises and cleans in one operation by rapidly dissolving protein, animal and vegetable fats, grease, sugar and chocolate residues, milk stains and other soils.

At the same time, it kills a broad spectrum of Gram Negative and Gram Positive bacteria. It also contains powerful emulsifiers which hold dissolved matter in suspension thereby keeping drains free flowing.

It will not harm any surfaces not harmed by water and leaves a residue free surface after rinsing.

INSTRUCTIONS FOR USE

Ready to use – spray and wipe.

Apply by spray, mop, sponge or machine (e.g. floor scrubber). Allow to penetrate, then simply wipe or rinse off.

Spray on and wipe off. Table is now clean and sterile.

It can also be used extensively in Commercial and Domestic Kitchens and anywhere that food is being processed or consumed.

Multi-Surface Biocidal Cleaner can be used as a general cleaner for floors, walls, paintwork, work surfaces, food prep areas, tables and anywhere requiring a clean and sterile surface.

PHYSICAL PROPERTIES

Colour: Light yellow.

Appearance: Light yellow liquid.

Odour: Characteristic.

Solubility: Soluble in water.

Boiling point: No data available.

Flash point: No data available.

Flammability: Non-flammable.

Density: 1.048g/cm³

pH: 8.8
