WATERLESS WASH

A waterless vehicle wash suitable for use on paintwork, plastic, glass, GRP and rubber

BENEFITS

- Eco-friendly.
- Easy to use.
- Convenient.
- Multi-purpose.
- Use on paintwork, worktops, UPVC and glasswork, in and outside.
- No rinsing required.

PRODUCT SIZES

- 750 ml spray bottle
- 3.25 litre refill

DESCRIPTION

Easy to use, Waterless Wash is a very good all-round cleaner for vehicle paintwork, glass, vinyl and rubber, so is good for the inside and outside of your vehicle.

A non-smearing monomolecular film is left on all treated surfaces, which enhances shine, causes water to bead (especially useful on glass as it is non-smearing) and leaves some stain resistance.

Waterless Wash is a blend of organic polymers, surfactants and surface-active ingredients designed to clean, shine and leave a finish that reduces the ability of soils to bond to painted surfaces.

Our product works by using super low-viscosity polymers with high lubricity that prevents frictional heat building up. This allows the micro-fibre cloths to collect dirt without scratching the surface.

Can also be used pm UPVC, polished wood including desks and is safe to use on phone and tablet screens.

INSTRUCTIONS FOR USE

Waterless Wash is best applied by spraying onto the surface to be cleaned, leaving it to dwell for approximately 30 seconds and then removing the dirt with one of the microfibre cloths (some customers say that spraying a little product on to the cleaning cloth is the best method) whilst using your other cloth for light buffing to enhance the shine on painted surfaces.

Waterless Wash will reduce the cleaning time of an average vehicle to approximately 15 minutes (excluding alloys, which clean up nicely but can be fiddly). It can be used on all outside finishes, i.e. paintwork, plastic trim, glass and rubber.

Using our product on the vehicle dashboard will leave it clean and near factory finish without being greasy or unnaturally shiny.

Do NOT use on hard floors, steering wheels or foot pedals as they can become slippery.

PHYSICAL PROPERTIES

Colour: Milky, white.

Appearance: Water- white liquid below 26°C

Odour: Pleasant (perfume).

Solubility: No data available.

Boiling point: No data available.

Flash point: >65°C

Flammability: Non-flammable.

Density: 0.996g/cm³

pH: 6.1.

HEALTH & SAFETY

Hazard pictograms (CLP): None.

Hazard statements (CLP):

To our knowledge, this product does not present any particular risk, provided it is handled in accordance with good occupational hygiene and safety practice.

Precautionary statements (CLP): None.

Hazardous ingredients: None
